SUPPORT FOR BUSINESS

COVID-19: SUPPORT FOR BUSINESS IN WALES

In response to the COVID-19 outbreak the Welsh Government has announced a further extension to the Economic Resilience Fund support for businesses in Wales, in addition to the support provided by the UK Government.

To help businesses locate the varied range of support available to them to get through this difficult period, take a look at the COVID-19 Business Support Finder pages at:

www.businesswales.gov.wales/coronavirus-advice

These packages of support are designed to cover as much of the Welsh economy as possible, and are mainly focused around providing financial support for businesses. However, business advisory support is still available online through the Business Wales service to assist with financial planning and recovery when the outbreak ends, and businesses start to consider their recovery.

This is an incredibly difficult time for the whole of the Welsh economy, the support that the Government is providing is designed to support as many businesses as possible through the outbreak.

For further information please visit **www.businesswales.gov.wales/coronavirus-advice**

Apprenticeships

Apprenticeships give you the opportunity to work for an employer, earn a salary and achieve a qualification whilst gaining valuable workplace skills and experience.

Apprenticeships and Higher Apprenticeships are funded for anyone employed and working in Wales, employed at least 16 hours per week. (eligibility criteria applies).

The programme is an exciting way to help people gain skills and qualifications whilst continuing to work without the need to study full time.

Apprenticeships can be for new starters or used to develop existing staff. Either way, organisations receive financial assistance towards the cost of training and assessment.

BECOMING AN APPRENTICE

How much will I earn?
It differs, but all employers have to pay as a minimum the apprenticeship minimum hourly rate. However, many will pay more.

But I already have a job?
No problem. Lots of companies use apprenticeships to retrain staff or as an opportunity for succession planning and skills development.

What about my future - would I be better off going to university?
You will gain industry approved qualifications and extensive work experience - this can make you more employable than a graduate. Sir Alex Ferguson, Rebecca Adlington OBE and John Frieda were all apprentices!

What if I don't get an apprenticeship?
There are many different options available to you including a Traineeship. You will receive a training allowance whilst you undertake this scheme and it can put you in a better position to get an apprenticeship.

TRAINEESHIPS

Traineeships

Are you a local business keen to give young people some work experience? If so, then why not support our Traineeship programme.

Coleg Cambria is working with many local businesses to provide young people with a fighting chance in this difficult economic environment. As an employer you will help a 16-18 year old gain a real insight into your business and provide them with the experience they need for their CV.

Their training allowance will be funded at no cost to you and we will work together with you to make sure you are supported throughout the programme. We all know how hard it is for young people to gain any real experience these days so why not find out how you can help those in your local area.

Please contact us if you would like to support our Traineeship programme, or to find out more.

If you are thinking of hiring an apprentice or trainee and would like some advice, or if you would like to find out more about becoming an apprentice, then please get in touch with our team today.
