

HEALTH & SOCIAL CARE

DID YOU KNOW...?

The NHS is the name given to the public health service, which is devolved in England, Scotland, Wales & Northern Ireland. The main principle of the NHS is that healthcare should be available to all who require it.

Adult social care covers a wide range of activities to help people who are older or living with disability or physical or mental illness live independently and stay well and safe.

There are over 350 different NHS careers and everyone makes a difference to people's lives every day.

Healthcare science staff play a vital role in the prevention, diagnosis and treatment of a huge number of medical conditions.

FUN FACT The National Health Service (NHS) was founded in 1948 & has grown into the world's largest publicly funded health service.

NHS apprenticeships include: Midwifery, Ambulance Practitioner, Dental Nursing, Podiatry & Physiotherapy

NHS Cadet schemes are a great way to learn & gain experience at the same time
