WELCOME

“A very warm welcome to Cambria. I am delighted that you have chosen to study with us for your degree level qualification.

“In partnership with some of the best universities in Wales and England we are able to offer you high quality, vocational degrees and higher level qualifications. Designed to meet current employment opportunities, our programmes will enhance your employability skills and career prospects.

“Cambria has a proven reputation for excellence. We combine inspirational teaching with outstanding student care to ensure that you get the best out of the investment you are making with us. So whatever your starting point, be assured we will give you the support you need to achieve a great outcome.

“I wish you every success in your studies.”

Jackie Doodson

Dean of Higher Education & Access to HE

“Cambria is a Further Education and Higher Education provider of educational excellence. Cambria work closely with universities and employers to ensure that education and the wellbeing of young people is at the heart of its ethos, whilst also paying special consideration to the employment opportunities.

“Experienced and knowledgeable tutors combined with state-of-the-art facilities make Cambria stand out at the forefront of academic performance. It is clear to see why Cambria is one of the highest performing colleges in Wales and why over 1,000 employers have chosen to enroll their staff onto Cambria courses in order to nurture and develop them into high-performing, successful individuals.

“With a range of courses suited to a multitude of abilities and interests, Cambria will stop at nothing to ensure all students are safe, happy, have the resources and facilities they need and are achieving above and beyond!”

OUR UNIVERSITY PARTNERS

As the first University College in Wales, Aberystwyth's excellent teaching and research reputation has been attracting students for almost 150 years.

Their campus-based university is at the heart of Aberystwyth, a cosmopolitan town in Mid-Wales nestled between the Cambrian Mountains and Cardigan Bay. Students at Aberystwyth benefit from a diverse and international student population, easy access to the seafront and beaches, rolling green mountains, a vibrant social and cultural life, and an excellent education. The Times Good University Guide named Aberystwyth the UK's University of the Year for Teaching Quality for two years running, in 2018 & 2019, followed by being named Welsh University of the Year in 2020 and why we top the 2021 Times Good University Guide league tables for both Student Experience and Teaching.

The University is committed to helping students move from campus to career, with 97% of graduates either in employment or further study within six months of completing their studies (HESA 2018). These employability ratings reflect the University's commitment to ensuring that their students get the skills they need for the 21st-century workplace.

LJMU Together – making a difference

Our city and our university stand tall together. We have grown from the confident, ambitious origins of Liverpool and have a shared history built on working hard, caring about supporting people and communities and being proud of who we are.

We have a distinct place in this lively city with our warm, friendly and open people. We share a spirit of adventure with a community striving to make a difference and put something back. Our staff, students and alumni are the beating heart of this university, with an impact that goes beyond academic, economic and social measures. It can be seen in our physical footprint around the city, our global connections and how often you will meet someone who has been transformed by a connection with our university and has helped transform the lives of others. Making a difference is what a university should be about. It is what we are about. It is who we are. It is Liverpool John Moores University.

Swansea University has been ranked 24th in the UK – its highest position ever – by the Guardian University Guide 2021, and ranked top in Wales. This latest ranking places Swansea University as a UK top 25 institution and as the top university in Wales for the second year running.

Swansea University achieved a gold rating, the highest rating possible, in the national Teaching Excellence and Student Outcomes Framework (TEF) and is ranked UK Top 10 for student satisfaction in the National Student Survey for 2020.

Swansea University spans two stunning campuses at each end of Swansea's waterfront. Singleton Park Campus is set in mature parkland and botanical gardens, overlooking Swansea Bay beach. To the east of the City is the Bay Campus, home to the School of Management, the College of Engineering and the College of Science, providing a world-class environment for collaboration in research, learning and teaching, enterprise and innovation.

All Cambria degree level courses are validated by some of the best universities in the UK. Our current partners are Aberystwyth University, Liverpool John Moores University, Swansea University, University of Chester and Wrexham Glyndŵr University.

Founded in 1839 as the first purpose-built teacher training college in the country, Chester has provided teaching excellence for 180 years and pre-dates all but a handful of other English Higher Education providers. Gaining university status in 2005, the University of Chester today is a 21st-century university and has gained overall student satisfaction above the sector average for the last six years (National Student Survey – NSS). The University is also the highest performing Higher Education institution in the North West for listening to the Student Voice (NSS), and achieved several Top 10 positions in the Whatuni Student Choice Awards 2020: 2nd for International; 8th for Local Life; 9th for Job Prospects; and 10th for Student Support.

The University proudly welcomes students from over 130 countries worldwide, and over 95% of our graduates are in employment or further study within six months (Destinations of Leavers from Higher Education statistic: UK, 2016-17). Originally based on one campus in Chester, the University now offers an extensive range of Single and Combined Honours courses to over 20,000 students across a number of specialist sites within the region. This includes four sites in Chester; a campus in Warrington; a University Centre in Shrewsbury; and a health/nursing-specific site in Birkenhead (Marriss House). Our Work Based Learning module is nationally renowned and available for the majority of our undergraduate degrees, and we also offer a fantastic range of study abroad opportunities in over 300 locations on six of the seven continents, including year-long and shorter placements.

Here at Chester, we produce strong, resilient, adaptable and ethical graduates who are ready to take their place in the world upon graduation and play a valuable role in society. The University's enriching and supportive student experience will help you to achieve your potential and, ultimately, make you more employable.

Delivering education since 1887, Wrexham Glyndŵr University is a vibrant, friendly and inclusive learning community; focused on inspiring each student and placing them firmly at the heart of everything we do.

First offering degrees in 1924 and becoming Glyndŵr University in 2008, the University has been awarded a silver rating for teaching excellence by the Teaching Excellence Framework and is recognised and renowned for providing students with high-levels of satisfaction, support and career opportunities.

Our courses have an applied focus and offer students a rich, hands-on and supportive learning experience to further their ambitions and encourage their aspirations and passion to succeed.

The University is committed to driving academic excellence for people from all backgrounds, whilst providing a progressive environment that's designed to allow each and every student to reach their potential. Throughout their studies students can also access dedicated support that's relevant to them, such as a personal tutor service, careers advice and more.

Situated across North-East Wales, the main campus is based in Wrexham. With sites of the stunning North Wales countryside, the Northop campus is the hub for all our biology, environment and animal courses. Glyndŵr Innovations in St Asaph is our cutting-edge research centre that brings together academia and industry.

GAIN A DEGREE AWARDED BY A TOP UNIVERSITY

LEAN ON US

At Cambria, we have a dedicated Student Services team on hand at every site to make your time with us as easy and enjoyable as possible.

PERSONAL TUTORS

As a higher level student you will have regular one-on-ones and group tutorials with your Personal Tutor.

Your Personal Tutor will closely monitor your progress and support you through your studies, helping you to keep on track with your learning at Cambria.

YOUR SAFETY

The safety and welfare of all our students is very important to us.

We want you to feel safe, supported and cared for. Our staff will ensure you are safe during your studies and provide support with personal difficulties.

SPECIALIST STUDY SKILLS

We are committed to meeting your additional learning needs and we have a team of specialists to support you with specialist advice and guidance and support with your specific learning difficulties.

STUDYING THROUGH THE MEDIUM OF WELSH

An increasing number of employers are looking for staff with bilingual skills and choosing to study through the medium of Welsh will provide you with an excellent foundation for your career.

At Coleg Cambria you can submit your assignments in Welsh and receive bilingual notes, including terminology. There are also numerous opportunities for you to develop your Welsh language skills by following Welsh Language courses as part of your English medium programmes.

We work closely with the Coleg Cymraeg Cenedlaethol which means that you can gain access to a Welsh resource library, short courses, a glossary of terms and much more. We also have a Cambria Branch of the Coleg Cymraeg Cenedlaethol which organizes all kinds of events and activities.

For more information email help.cymraeg@cambria.ac.uk

FINANCIAL SUPPORT

Choosing to study at a higher level can be an investment in your future. We'll provide you with advice and guidance to help you with any financial concerns. **Call our Student Services team on 0300 30 30 007.**

STUDENT VOICE

Get involved with Student Voice and make a difference.

Student Voice is how you get to have your say and change what happens. Become a Class Rep and represent your class to gain valuable skills that could potentially enhance your future career opportunities.

EQUALITY AND DIVERSITY

We're proud to have a community that celebrates equality and diversity and ensures everyone is valued.

As students and staff at Cambria we:

- Reflect the diverse communities we serve
- Respect and celebrate the different backgrounds and cultures of all learners, staff and visitors
- Have zero tolerance of bullying and harassment
- Treat all learners and staff equally and fairly
- Ensure learning services are accessible to all
- Challenge prejudice

LIBRARY SERVICES

The Library Service offers a welcome place for you to study. All sites offer library facilities where you will find staff ready to help. We offer print and online resources, and hold essential and core titles as suggested by course tutors. Research often requires access to electronic sources and we subscribe to an excellent range of journals and academic content which can be accessed from Cambria or remotely.

All libraries have wifi for connecting your own device. We encourage and welcome students to bring their own device and we have charging points throughout the libraries. The library service is equipped with PCs and printing facilities.

Need advice or help with assignments or course work? We offer advice and regular sessions on information skills topics including referencing your work correctly, exploring online material, finding relevant sources for assignments and making best use of Google Suite.

CHAPLAINCY

Cambria offers a Chaplaincy Service where you can talk confidently to one of the team.

Chaplains are here for everyone: for people of all faiths, and none. We are here if you need someone to talk to, for whatever reason, to listen and support. We also have spaces where you can pray and reflect. **To find out more please email chaplaincy@cambria.ac.uk**

CHILD CARE

Cambria offers fully equipped nurseries at the Deeside and Yale sites for children from 12 weeks to 5 years old.

The nurseries have excellent facilities and qualified, experienced staff to ensure children have the best possible start. If you have pre-school children you may be eligible to receive financial assistance towards the cost of childcare in one of our nurseries whilst you are a student here.

WHY STUDY WITH US?

SUCCESSFUL INSPECTION

In 2019 we had a very successful Gateway Quality Review, carried out by the Quality Assurance Agency (QAA) of our Higher Education provision. The published report says:

- There can be confidence that academic standards are reliable, meet UK requirements, and are reasonably comparable.
- There can be confidence that the quality of the student academic experience meets baseline regulatory requirements.

TUTORS WITH INDUSTRIAL EXPERTISE

Tutors use their industry experience and employer links to prepare you well for employment.

INSPIRATIONAL TEACHING

Tutors are experts in their subjects and passionate about teaching and learning.

NATIONAL REPUTATION FOR EXCELLENCE

Cambria has a national reputation for Excellence – Estyn, Her Majesty's Inspectorate for Education and Training in Wales awarded Cambria the highest grade possible for its current performance.

STRONG LINKS WITH EMPLOYERS

Cambria has very strong partnerships with over 1,000 employers – through these partnerships we ensure that you develop the very latest industry standard skills.

POSITIVE CULTURE OF LEARNING

Cambria has an exemplary learning ethos which has been recognised by Estyn.

EXCELLENT VALUE FOR YOUR MONEY

Studying locally makes sense financially.

INDIVIDUAL CARE AND ATTENTION

Cambria employs experts who are dedicated to making sure you have personalised support to meet your individual needs - whatever they are.

HIGHLY SATISFIED STUDENTS

Our students speak highly of their experience with us.

INDUSTRY STANDARD TEACHING RESOURCES

Cambria invests year on year in improving its buildings and teaching resources.

QUALIFICATIONS EXPLAINED

Access to Higher Education (HE)

Our Level 3 Access to Higher Education courses prepare you to study for a degree and are designed for people who left school without the usual qualifications. You can enrol on an Access to HE course to help you return to learning and progress to degree level study.

HNC AND HND - HIGHER NATIONAL CERTIFICATE/DIPLOMA

A Higher National Certificate or Diploma is a vocational qualification that gives you the skills to put your knowledge into use for a particular job. Highly valued by employers, they offer an alternative route into Higher Education.

A HNC usually takes two years of part time study and roughly equates to completing your first year at university.

A HND usually takes two years of full time study, three years of part time study or one year as a 'top up' if you have already completed a HNC. A HND qualification can sometimes allow direct entry to a third year degree programme.

FOUNDATION DEGREES

A foundation degree is a qualification which combines academic study with workplace learning. They are designed and developed with employers and are the equivalent to studying for the first two years at university.

DEGREES

Upon completion of your HND or foundation degree you can top up your degree to Bachelor's level, equating to a third year of university. Our range of degree courses continues to expand and are widely supported by employers who contribute to the development of these courses.

HIGHER APPRENTICESHIPS

Higher Apprenticeships are a great alternative route to achieving higher level qualifications. They are a nationally accredited work-based programme designed to meet employer needs to build a well qualified workforce. Many Higher Apprenticeships include degree, HNC or foundation degree programmes, others include higher level professional courses such as AAT and ILM. They will allow you to learn at degree level with subsidised tuition fees and the opportunity to earn as you learn.

PROFESSIONAL DEVELOPMENT

Professional development courses can help you to progress in the workplace and accelerate up the career ladder. A broad range of professional development routes have been established to support many ranges of career development and progression. Cambria offers professional development in many areas accredited by NEBOSH, IOSH, CIM, CIPD, AAT, Prince2 and ILM.

PGCE / PCE

The Professional Graduate Certification in Education (PGCE) and the Professional Certificate in Education (PCE) are one or two year academic qualifications that are studied either after a degree (PGCE) or after a Level 3 qualification (PCE). The PGCE/PCEs offered by Cambria will give you the skills and knowledge to teach in the post compulsory education and training sector e.g Further Education, work-based learning and adult education.

DEGREE APPRENTICESHIPS

Degree Apprenticeships combine working with studying part-time. Apprentices spend part of their time at Cambria and the rest with their employer. Our Degree Apprenticeships are developed with employers and Swansea University.

They can take three years to complete, depending on course level.

Degree Apprenticeships are still quite new, so there are a limited number of vacancies. It's anticipated that the number of vacancies will grow over the next year or two.

FOCUS ON YOUR FUTURE

**For detailed course information visit
www.cambria.ac.uk**

ACCESS TO HIGHER EDUCATION

LENGTH:

1 year full time

This course runs around school times, starting at 9.15am and finishing at 2.30pm.

*There is also an option to do Access to Health Care via blended learning. This requires college attendance 1 day a week 9.15am - 6.30pm with the remainder of the course being delivered online.

LOCATION:

Deeside or Yale

At Cambria our Level 3 Access to Higher Education (HE) programmes are FREE OF CHARGE. They prepare you to study for a degree and are designed for people who left school without the usual qualifications, such as A Levels.

The courses offer a one year route to degree level studies leading to a variety of careers and are open to students with substantial life experiences gained since leaving school. Many of our Access to HE students have gone on to succeed at university and pursued new careers that they had never thought possible.

You can enrol on Access to HE courses to help you return to learning and progress to degree level study.

Some vocational degree courses require specific GCSEs as well as the Access to HE Diploma, there is the opportunity to achieve these alongside your main study.

COURSES

- Access to HE Health Care - Deeside or Yale
- Access to HE Biosciences - Deeside
- Access to HE Humanities and Social Sciences - Yale
- Blended Access to HE Health Care - Deeside or Yale - this is a combination of learning from home and attending college on a part time basis
- Blended Access to HE Engineering - Deeside - this is a combination of learning from home and attending college on a part time basis

CAREER OPTIONS

- Further study at university at degree level
- Health and Social Care
- Youth and Community Work
- Nursing
- Teaching
- Humanities Business
- Social Work
- Criminal Psychology

For detailed course information including start dates, please visit www.cambria.ac.uk

Course - FdEng Advanced
Manufacturing Engineering (Electrical)
Employer - JCB Transmissions
Role - Controls and Calibrations
Apprentice

"I've had a great deal of support
throughout the courses I've completed
at Cambria which has really benefited
my learning.

"I've found my Foundation Degree
enjoyable yet challenging and it's
helped me advance in my day to day
job. I've really enjoyed developing my
knowledge and gaining new skills".

IRVINE**

FdEng / BEng ADVANCED MANUFACTURING ENGINEERING (ELECTRICAL / MECHANICAL)

Can be studied as a Higher or Degree Apprenticeship

FdEng COURSE CODE: LP51320 | BEng COURSE CODE: LP51321

LENGTH:

2 years, part time Foundation Degree or Higher Apprenticeship
3 years, part time Bachelor Honours Degree

Students on this course will be required to undertake periods of self study and some time at Swansea University in addition to taught hours.

ENTRY REQUIREMENTS:

- Fd Year 1 – A Levels of grade BBB including Maths and Physics. There is no requirement on the third A Level, but one of Chemistry, Design, IT/ Computing, Further Maths or Business/Economics is preferred or a relevant BTEC qualification with grades of D*D*D* with a Distinction in the Further Maths Module
- Fd Year 2- Relevant HNC qualification (120 credits)
- BEng- Relevant Fd (240 credits) or a Level 5 Diploma
- In addition to this, all applicants must have GCSE English Language and GCSE Maths or Numeracy at grade C or above.

Any assessment of prior learning (such as professional development awards or employment-based awards) which is at a Higher Education level but not awarded HE credits will be considered on a case by case basis by the Swansea University and Cambria Admissions Teams.

LOCATION:

Deeside

MODULES:

Year 1:

- Engineering Analysis 1
- Business, Management and Quality
- Electrical and Electronic Principles
- Engineering Manufacture
- Engineering Science
- Work-based Learning
- Professional Engineering Practice

Year 2:

- Engineering Analysis 2
- Advanced Manufacture, CAM & NDT
- Stress Analysis and Dynamics
- Industrial Project
- Electrical Circuits, Control and Instrumentation
- Computer Aided Engineering
- Engineering Materials

Year 3:

- Research Project
- Engineering Management
- Advanced Engineering Design
- Manufacturing Optimisation and Automation
- Systems Engineering
- Advanced Engineering Materials
- Digital Manufacturing
- Design for Reliability
- Industry 4.0
- Power Systems (Electrical Pathway Only)
- Finite Element Analysis (Mechanical Pathway Only)

WHAT WILL I STUDY?

You will study a broad spectrum of advanced manufacturing topics developed in line with employer requirements. This programme is for students and higher apprentices who want to progress within and further improve knowledge in advanced manufacturing engineering.

Key features to studying this degree at Cambria:

- All modules are taught by Cambria or Swansea University Engineering tutors who have a breadth of industrial and academic knowledge
- Outstanding connections with many businesses and business leaders
- World-class facilities and resources
- A mix of academic studies which links to practical vocational applications in all subject modules
- Excellent student support, with all students having a Personal Tutor
- Experienced provider of apprenticeship routes

HOW AM I ASSESSED?

The programme will be delivered through a combination of lectures, seminars, interactive tutorials, visiting speakers, workshops and 'Flipped Learning' techniques. Most modules are assessed through examinations and assignments. You will be given feedback and pointers for improvement for every assignment and examination. Work placements are required for the work-based modules. Approximately 1 week per year will be spent at the university campus in Swansea.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

Course - BEng Aeronautical Engineering
Employer - Airbus
Role - Engineering Undergraduate Apprentice

“Cambria offers great facilities and equipment for all aspects of study. The tutors are always available to offer any necessary support and answer any questions you may have.

“The course not only improves your academia but also develops you as a person, building confidence, leadership and organisational skills. The tutors are highly knowledgeable and many have worked in a similar industry, therefore have years of experience which they pass onto us.

“I would highly recommend studying at Cambria, if you show drive and motivation to achieve you will be supported every step of the way.”

**SOPHIE
BAYLISS**

FdEng / BEng AERONAUTICAL AND MANUFACTURING ENGINEERING

Can be studied as a Higher or Degree Apprenticeship

FdEng COURSE CODE: LP51319 | BEng COURSE CODE: LP00874

Accredited by the
Royal Aeronautical
Society

LENGTH:

2 years, part time Foundation Degree or Higher Apprenticeship
3 years, part time Bachelor Honours Degree

Students on this course will be required to undertake periods of self study and some time at Swansea University in addition to taught hours.

- Manufacturing Optimisation and Automation
- Systems Engineering
- Advanced Engineering Materials
- Digital Engineering

WHAT WILL I STUDY?

In choosing Cambria's Foundation Degree in Aeronautical and Manufacturing Engineering (accredited by Swansea University) you will study a broad spectrum of advanced manufacturing topics developed in line with employer requirements. This programme is designed for students and higher apprentices who want to progress within and further improve knowledge in aeronautical manufacturing engineering.

Key features to studying this degree at Cambria:

- All modules are taught by Cambria or Swansea University Engineering tutors who have a breadth of industrial and academic knowledge.
- Outstanding connections with many businesses and business leaders throughout North Wales, with guest business speakers, presentations and opportunities to network.
- World-class facilities and resources in the new Engineering University Centre at the Deeside site.
- A mix of academic studies which links to practical vocational applications in all subject modules.
- Excellent student support, with all students having a personal tutor and access to one to one support.
- Experienced provider of apprenticeship routes.

HOW AM I ASSESSED?

The programme will be delivered through a combination of lectures, seminars, interactive tutorials, visiting speakers, workshops and 'Flipped Learning' techniques. Most modules are assessed through examinations and assignments. You will be given feedback and pointers for improvement for every assignment and examination.

Work placements are required for the work-based modules. Approximately 1 week per year will be spent at the university campus in Swansea.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

Course - HND Animal Management

“The support I’ve had at Cambria has been really good. The tutors provide as much support as possible and the course leader is very inspiring.

“I’ve found the course very beneficial, due to the variety of topics covered. It has helped to develop my confidence and provided me with skills that I will take into my aspiring career as a Veterinary Nurse. I particularly enjoyed working with a variety of different animals and getting hands on experience.

“If you are thinking of studying the next level at Cambria you won’t be disappointed. The staff are great and you’re not just a number.”

**SIOBHAN
NOONAN**

HNC/HND ANIMAL MANAGEMENT

HNC COURSE CODE: LP50200 | HND COURSE CODE: LP51284

LENGTH:

HND- 2 years full time/ 4 years part time
HNC - 1 year full time/ 2 years part time

Students on this course will be required to undertake periods of self study, additional to taught hours.

ENTRY REQUIREMENTS:

- Level 3 qualification (minimum 120 credits / 720 GLH) in Animal Management or a related subject with a Merit profile - minimum of 64 UCAS tariff points
- A Level grades of DDE - minimum of 64 UCAS tariff points
- International equivalent of the above
- For learners who have not recently been in education, applications will be considered on a case by case basis, but may include one of the following:
 - Access to Higher Education Certificate awarded by an approved Further Education institution in a relevant area.
 - Related work experience.
 - Applicants should typically have A* to C grade and/or 9 to 4 in GCSE English/Welsh and Maths/Numeracy.

LOCATION:

Northop

MODULES:

Year 1:

- Animal Health and Welfare
- Business and the Business Environment
- Managing a Successful Project
- Animal Behaviour in Society
- Animal Anatomy and Physiology
- Ecological Principles
- Animal Collection Management
- Teaching in a Specialist Subject

Year 2:

- Biological Principles
- Research Project
- Anthrozoology
- Animal Breeding and Genetics
- Wildlife Conservation
- Ethics and Consultation
- Work Experience

In addition to taught units students also have dedicated tutorial and practical time to further support their studies.

WHAT WILL I STUDY?

Graduates who successfully complete this course will obtain a varied skill set well suited for the broad range of opportunities within the animal industry. In a highly competitive sector, Cambria's students will be equipped to enter the work sector with a range of transferable and practical industry based skills including managing animal collections, delivering teaching instruction and implementing behaviour modification plans.

HOW AM I ASSESSED?

Assessment will be through a combination of assessment methods including examinations, controlled assessments, assignments, practicals, presentations, case studies, projects and peer observations. Assignments will be marked electronically and you will be given feedback and pointers for improvement for every assessment.

WORK PLACEMENT

The HND programme contains an essential work placement component. If you are not already in employment, the college will support you to find a work placement.

Covid regulations are in place in the case that Covid-19 disrupts placements.

WHAT'S NEXT?

Students who successfully complete the HND in Animal Management will have the necessary qualifications to pursue further study.

CAREER OPTIONS

Opportunities for careers include:

- Animal Keeper
- Animal Instructor or Lecturer
- Animal Trainer or Consultant
- Wildlife Technician
- Animal Rescue Centre Manager

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

FdSc / BSc APPLIED BUSINESS MANAGEMENT

FdSc COURSE CODE: LP00989 | BSc COURSE CODE: LP01249

LENGTH:

2 years, part time, day release (FdSc) with the option of an additional 1 year top up to BSc.

Students on this course will be required to undertake periods of self study, additional to taught hours.

ENTRY REQUIREMENTS:

- Predicted grades of 3 A Levels grade B or above. We do not require A Levels in Business, Economics, Maths or Accounting/ Finance. We do not however consider General Studies as an A Level subject for offer purposes.
- Predicted (or achieved) IB of 32-33 or higher.
- The Skills Challenge Certificate will be accepted as part of the application criteria.
- BTEC (18 units) grades of DDM or equivalent.
- Access to HE Diploma - Business.
- All applicants must have GCSE English Language and GCSE Maths or Numeracy at grade C or above.
- Non-native English speakers must achieve 6.0 overall with no component less than 5.5 in IELTS or equivalent tests.
- Any assessment of prior learning (such as professional development awards or employment-based awards) which is at a Higher Education level but not awarded HE credits will be considered on a case by case basis by the Swansea University Admissions Team.

LOCATION: Northop Business School

WHAT WILL I STUDY?

In choosing Cambria's FdSc/BSc in Applied Business Management (developed and accredited by Swansea University) you will study a broad spectrum of business and management topics (such as marketing, operations management, finance, accounting, strategy and human resource management). This programme is designed for the student who wants to excel and reach the top level of global business management practice.

Key features to studying this degree at Cambria:

- All modules are taught by our leading business tutors who have a breadth of industrial and academic knowledge and regularly train business leaders from across Wales.
- Outstanding connections with many businesses and business leaders throughout North Wales, with guest business speakers, presentations and opportunities to network.
- Experienced provider of apprenticeship routes, including business management.
- Personal Tutor and one to one support.
- World-class facilities with outstanding technology.

MODULES:

Year 1:

- Marketing
- Human Resource Management
- Finance, Accounting and Analytics
- Operations Management 1

Year 2:

- Leadership and International Human Resource Management
- Operations Management 2
- Business Management 1
- Organisational Project 1

Prince2 Foundation is offered as an optional extra on year 2 of the Foundation Degree, this project management qualification is a valuable asset to employers.

Year 3:

- Business Management 2
- Project Management and Delivery
- Organisational Project 2 (double module)

HOW AM I ASSESSED?

The course material will be delivered through a combination of lectures, seminars, interactive tutorials, visiting speakers and workshops. The modules are assessed through a variety of different ways including self-reflective reports with an accompanying portfolio of evidence, examinations, projects, and presentations. Where possible, assessments are marked electronically and you will be given feedback and pointers for improvement for every assessment. Student support is available from your own Academic Mentor and the module tutors throughout your studies.

WORK PLACEMENT

This programme is aimed at those in suitable employment for approximately 30 hours per week from the start of the programme.

Covid regulations are in place in the case that Covid-19 disrupts placements.

WHAT'S NEXT?

Successful completion of all modules in Years 1 and 2 will enable students to achieve a FdSc. Completion of the FdSc will allow progression onto the third year of the BSc Applied Business Management course at Cambria.

Students with a Business Management degree are very employable as they have the full range of business skills needed. You will be able to show a comprehensive understanding of major business theories; respond critically to contemporary arguments; evaluate the aims and impact of social and economic policies.

CAREER OPTIONS

Opportunities for careers include:

- Accountancy
- Marketing
- Human Resources
- Logistics
- Business Development
- Sales

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

Stacey Adams Course - BSc Applied Business Management

“My course has been tailored to be used directly in industry. It has enabled me to progress into a management role, gain experience and confidence. The modules give you a broad range of knowledge in many areas of a modern business, providing the skills needed to specialise in a variety of roles.

“Cambria offers a supportive, empowering environment to help you reach your full potential, with experienced academic mentors and knowledgeable lecturers.

“I would encourage anyone to do the Applied Business Management degree, it will open so many opportunities and leave you feeling knowledgeable, confident and prepared for your next step.”

FdA / BA (Hons) CHILDHOOD STUDIES

FdA COURSE CODE: LP01116 | BA COURSE CODE: LP51332

LENGTH:

2 years, full time Foundation Degree (FdA) with the option of an additional 1 year top up to a BA.

3 years BA (Hons)

Students on this course will be required to undertake periods of self study and work placement additional to taught hours.

ENTRY REQUIREMENTS:

- 3 A Levels grade C or equivalent
- 96 UCAS points (2017 UCAS Tariff)

Applicants who come from significant vocational experience but without the UCAS point requirement will be considered on a case by case basis.

A Disclosure and Barring Service (DBS) Enhanced Police check is required for this course.

LOCATION:

Deeside

WHAT WILL I STUDY?

In choosing Cambria's Foundation Degree or Degree in Childhood Studies (developed and accredited by Aberystwyth University) you will study a broad spectrum of childhood development topics that include the sociological, psychological and educational factors that influence the development of children. You will be taught by enthusiastic staff and cover a range of practical, theoretical, and professional disciplines that employers demand. Your skills and abilities will be enhanced with regular exposure to team-work, communication skills, interpersonal skills, and time and work management opportunities.

The Childhood Studies programmes will equip you with the skills and expertise necessary for work in a range of child-related professions. It will push you to improve your legislative knowledge, your social awareness, your ability to work with others and your academic excellence. These skills will fit you for any graduate workplace which values thorough research, critical analysis, interpersonal abilities, and fluent and confident communication and reporting.

The Childhood Studies programmes will draw you to the disciplines of psychology, sociology and education. As you study, you will consider the theoretical principles of the subject and evaluate them in the light of social history, contemporary legislation and the latest best practice. You will explore the social, emotional and cognitive development of children, and scrutinise the methods used for measuring child development.

For the Children's Learning and Development module, in addition to lectures, each student will make visits to a local playgroup or nursery to experience and observe children at play. This practical visit is an important element within the course, illustrating many of the aspects covered in the course.

HOW AM I ASSESSED?

The course material will be delivered through a combination of lectures, seminars, interactive tutorials, visiting speakers and workshops. Audio recordings of lectures are made so that you can listen again at exam time, or catch up if you are ill. Visiting speakers add to the variety of presentation.

Modules are assessed through examinations and/or essays, which may include, projects, bibliographic exercises, reflective diaries, posters, and presentations. Examinations do not account for more than 50% of the marks in any modules. A portfolio based on observation is also required.

In the third year, your dissertation will allow you to conduct your own research project into a topic of your own choice, under the guidance of a member of staff. It will require library-based study, a critical interpretation of sources, and a small-scale empirical investigation.

Where possible, assignments are marked electronically and you will be given feedback and pointers for improvement for every assignment and examination.

Student support is available from your own Personal Tutor and the module tutors throughout your studies.

WORK PLACEMENT

Placement is a required element in Years 1 and 2 as your practice will be linked to module content and assessment.

Covid regulations are in place in the case that Covid-19 disrupts placements.

WHAT'S NEXT?

Successful completion of Years 1 and 2 will enable students to achieve a Foundation Degree. Completion of the Foundation Degree will allow progression onto the BA Childhood Studies in Year 3.

CAREER OPTIONS

Data demonstrates that studying Childhood Studies at Cambria will provide opportunities to develop a range of skills sought by employers in a range of relevant sectors. In recent years, students studying the Childhood Studies Degree at Aberystwyth University have confidently moved into careers within the field of teaching and education (including SEN), social care, nursing, speech therapy, social work, child welfare, play therapy, the leisure industry, child law, and childhood research.

We will actively support our graduates to move on to study at primary PGCE level or to take a Masters, and the close partnership with Aberystwyth University means that those students opting to go on to higher level study can find pathways via Aberystwyth University.

The wealth of core childhood-specific skills and other, more generic skills that you will develop during your degree can be easily transferred into almost any graduate or professional employment situation. The department additionally encourages students to seek work placements activity and focused careers support to help source the right work experience opportunity to start profiling your career direction. You will be able to show a comprehensive understanding of major learning theories; respond critically to contemporary arguments; reflect upon your own practice as a working professional; evaluate the aims and impact of social policies; and consider the subject from multiple positions, such as from gender and cross-cultural perspectives.

BURSARIES

For September 2021 starts we are offering a £1,000 bursary* for all current Coleg Cambria students who study this degree course.

* Bursaries will be awarded in two instalments, to students who have paid their fees and will be subject to conditions.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

Kirsty Louise Jones
Course - BA/Foundation Degree
in Childhood Studies
Employer - Cambrian Aquatics
Sports Centre
Role - Swimming Instructor

“Cambria has been unwavering in the support that I have received, the tutors are always on hand for any questions or problems you have. I found out about the course from another student and it fitted perfectly, as if it were tailor-made just for me.

“The course is interesting, informative with well defined modules that have been really enjoyable to learn about.

“I cannot recommend this course enough, it’s perfect for everyone who wants to pursue Higher Education. I’m excited to see what the next few years bring to my learning journey.”

HNC CONSTRUCTION AND THE BUILT ENVIRONMENT (CIVIL ENGINEERING)

Can be studied as a Higher Apprenticeship COURSE CODE: LP01242

LENGTH:

2 years - part time, day release

Students on this course will be required to undertake periods of self study, additional to taught hours.

ENTRY REQUIREMENTS:

Applicants need to possess at least one of the following:

- BTEC Level 3 Diploma/Certificate in Construction or Civil Engineering
- Extended Diploma in Construction or Civil Engineering
- Edexcel Advanced VCE (e.g. in Construction and the Built Environment)
- City & Guilds FTC 6000
- Advanced Diploma/Certificate in Construction
- Or at least one A Level pass, with appropriate supporting passes at GCSE grades in at least four subjects including Mathematics, a Science subject and a subject requiring the use of written English.
- Suitable experience may be accepted instead of formal qualifications subject to interview.

The entry requirements are given as general guidance to the level of offer made. If you are unsure whether you meet the entry requirements, then please contact us.

LOCATION: Bersham Road

MODULES:

Unit 1 - Individual Project

Unit 2 - Construction Technology

Unit 3 - Science and Materials

Unit 4 - Construction Practice and Management

Unit 6 - Construction Information (Drawing, Detailing, Specification)

Unit 7 - Surveying, Measuring and Setting Out

Unit 8 - Mathematics for Construction

Unit 20 - Principles of Structural Design

WHAT WILL I STUDY?

The HNC in Construction and the Built Environment (Civil Engineering) is offered at Cambria through a collaborative agreement with Pearson. The programme comprises of two years part-time, day-release study and requires the completion of ten vocationally-specific modules.

The aim of the programme is to prepare students for a range of higher technical, professional and managerial careers in civil engineering by providing specialised studies which are relevant to those vocations and professions within which students are employed or are seeking employment.

The programme has been structured so that students are able to develop a range of skills and techniques, personal qualities and attitudes essential for successful performance in their working life.

Teaching is by formal lectures, supported by laboratory work, materials testing, surveying fieldwork, field trips, site visits, drawing and design work.

HOW AM I ASSESSED?

Assessment is undertaken through written submission, time-controlled examination and practical activities.

WHAT'S NEXT?

- BSc Civil Engineering Studies
- BSc (Hons) Construction Management
- BSc (Hons) Real Estate Management

CAREER OPTIONS

The HNC in Civil Engineering provides students with a higher technical qualification which will be appropriate in pursuing career ambitions in the following sectors of the civil engineering industry:

- Civil Engineering
 - Structural Engineering
 - Highway Engineering
 - Railway Engineering
 - Public Health Engineering
- and many more.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

Course - HNC Construction and the Built Environment (Building Studies)
Employer - Anwyl Partnerships
Role - Assistant Quantity Surveyor

“I was greeted by friendly and approachable faces who were eager to put me at ease. This proved invaluable at the time, as I began my course as a mature student and had been out of education for twenty years. The academic learning module was of great support to refresh my writing and vocabulary skills in my first year. Continuous support throughout via one to one progress meetings, emails and video calls has been a great help along with regular reviews and feedback on my assignments in order for me to progress.

“I have found the course relevant to my chosen profession of Quantity Surveying as well as gaining an insight and further understanding of all stages of the construction industry. It has benefited me by providing me with more knowledge of the subject area, introducing me to up to date industry standard software and current legislations required across health and safety and contractual obligations throughout. Over the past two years this course has had a huge impact on building my confidence and enabled me to thrive in a male dominant environment. I have progressed in my career by being able to utilise what has been learnt on my first live project for my employer as the lead Quantity Surveyor.”

FdA CREATIVE MEDIA PRODUCTION

COURSE CODE: LP52302

LENGTH:

2 years, full time

Students on this course will be required to undertake periods of self study in addition to taught hours.

ENTRY REQUIREMENTS:

- 45 UCAS points
- Extended Diploma subjects/grades required: DMM in a relevant subject required if no other Level 3 qualification has been taken
- GCSE Maths and English Language at C grade/grade 4 or above. Plus an interview or presentation of portfolio may be required
- Access to HE Diploma with at least 9 Distinctions and 36 Merits or any other combination that equates to 104 UCAS tariff points in a relevant subject
- Mature students with GCSE grade C or above in English Language and Maths or equivalent, but lacking traditional Level 3 qualifications will be considered on the basis of relevant experience and an appropriate portfolio of work.

LOCATION:

Yale

MODULES:

Year 1

- Digital Media Tools
- Production Practice
- Themes of Contemporary Media
- Introduction to the Media Industry
- Understanding Narrative
- Digital Production Practice

Year 2

- Multiplatform Production
- Compositing and Post Production
- Drama
- Applying for Placements & Jobs
- Digital Media Ethics, Compliance and Copyright
- Digital Media Cultures
- TV Studio Production

WHAT WILL I STUDY?

This two year Foundation Degree course will prepare you for a career in the media as a flexible practitioner fully capable of meeting the challenges of the constantly evolving media industries. Using a combination of practical experiences and theoretical learning, the course will build your experience of media production, and deepen your understanding and skills in media tools and techniques, professional practice, creativity, narrative skills, digital media technology and contemporary media theory.

As well as making media products you will study academic modules which prepare you with a range of transferable skills vital for further study and valued in many career paths.

HOW AM I ASSESSED?

Assessment varies depending on the modules assessed, but will usually include a combination of exams and coursework which employ a range of assessment methods, including: written work (essays), presentations (group/individual), practical assessments (individual and team projects), producing web content, video productions both factual and fiction, studio and location workshops and interactive products and portfolios including e-portfolios.

WHAT'S NEXT?

When you successfully complete the course, you may wish to progress to the BA (Hons) Media Production at Liverpool John Moores University or directly into employment.

Students are eligible to progress to the final year of a BA honours, and will be supported by college and university staff in making their decision.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

FdA EDUCATION (Additional Learning Needs/ Special Educational Needs) / BA EDUCATION

FdA COURSE CODE: LP01114 | BA COURSE CODE: LP01102

LENGTH:

2 years, full time Foundation Degree (FdA)
With the option of an additional 1 year top up to a BA

Students on this course will be required to undertake periods of self study and work placement additional to taught hours.

ENTRY REQUIREMENTS:

- 3 A Levels grade C or equivalent
- 96 UCAS points (2017 UCAS Tariff)

Applicants who come from significant vocational experience but without the UCAS point requirement will be considered on a case by case basis.

A Disclosure and Barring Service (DBS) Enhanced Police check is required for this course.

LOCATION:

Deeside

WHAT WILL I STUDY?

In choosing Cambria's Foundation Degrees in Education (developed and accredited by Aberystwyth University) you will study a broad spectrum of education topics that include the sociological, psychological and educational facets that influence how we learn. You will be taught by enthusiastic staff and cover a range of practical, theoretical, and professional disciplines that employers in this discipline demand. Your skills and abilities will be enhanced with regular exposure to team-work, communication skills, interpersonal skills, and time and work management opportunities.

The Foundation Degree in Education offered at Cambria will equip you with the skills and expertise necessary for work in a range of education-related professions. It will push you to improve your pedagogical knowledge, your social awareness, your ability to work with others and your academic excellence. These skills will fit you for any graduate workplace which values thorough research, critical analysis, interpersonal abilities, and fluent and confident communication and reporting.

The programmes will involve you in the diverse and fascinating subject of education, which draws on the disciplines of psychology, sociology, education and coaching. As you study, you will consider the theoretical principles of the subject and evaluate them in the light of social history, contemporary legislation and the latest best practice. You will explore the social, emotional and pedagogical development of learners, and scrutinise the methods used for effective measurement of learner progress.

HOW AM I ASSESSED?

The course material will be delivered through a combination of lectures, seminars, interactive tutorials, visiting speakers and workshops. Audio recordings of lectures are made so that you can listen again at exam time, or catch up if you are ill. Visiting speakers add to the variety of presentation.

Modules are assessed through examinations and/or assignments, which may include projects, bibliographic exercises, reflective diaries, posters, and presentations may also be utilised. Examinations do not account for more than 50% of marks in any modules.

In the third year, your dissertation will allow you to conduct your own research project into a topic of your own choice, under the guidance of a member of staff. It will require library-based study, a critical interpretation of sources, and a small-scale empirical investigation.

Where possible, assignments are marked electronically and you will be given feedback and pointers for improvement for every assignment and examination.

Student support is available from your own Personal Tutor and the module tutors throughout your studies.

WORK PLACEMENT

Placement is a required element in Years 1 and 2 as your practice will be linked to module content and assessment.

Covid regulations are in place in the case that Covid-19 disrupts placements.

WHAT'S NEXT?

Successful completion of years 1 and 2 will enable students to achieve a Foundation Degree. Completion of the Foundation Degree will allow progression onto the BA Education in Year 3.

CAREER OPTIONS

Students with a FdA in Education can pursue careers supporting teaching and education (including SEN), and can progress to further learning and careers in social care, speech therapy, social work, child welfare, play therapy, the leisure industry and training and assessing in the workplace.

For those of you keen to explore your entrepreneurial flair there is plenty of opportunity and support here at Cambria to help you explore your own business ideas, and funding options.

We will also actively support those who achieve the BA in Education to move on to study at PGCE level or to take a Masters, and the close partnership with Aberystwyth University means that those students opting to go on to higher level study can find pathways via Aberystwyth University.

BURSARIES

For September 2021 starts we are offering a £1,000 bursary* for all current Coleg Cambria students who study this degree course.

* Bursaries will be awarded in two instalments, to students who have paid their fees and will be subject to conditions.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

Level 4 (20 credits - 60 taught hours /140 hours private study)

- Business & Management Techniques
- Programmable Logic Controllers
- Engineering Mathematics
- Electrical Engineering Science

Level 4 (10 credits - 30 taught hours / 70 hours private study)

- Engineering Design
- Electronics 'A'

Level 5 (20 credits - 30 taught hours / 170 hours work-based)

- Project (Industrial based)

Level 5 (10 credits - 30 taught Hours /70 hours private study)

- Electrical and Electronic Principles

WHAT WILL I STUDY?

The HNC in Electrical and Electronic Technology is offered at Cambria through a collaborative agreement with Wrexham Glyndŵr University. It comprises of two years part-time study with day release and requires the completion of vocationally specific modules.

The aim of the programme is to prepare students for a range of higher technical, professional and managerial careers in engineering by providing specialised studies which are relevant to those vocations and professions within which students are employed.

HNCs are benchmark qualifications for Engineering Technicians, recognised by industry and essential for certain positions in HM Forces. Our HNC courses introduce you to the fundamentals of electrical engineering science, the business and management skills you'll need to succeed and provide you with an opportunity to hone your maths skills.

HOW AM I ASSESSED?

Assessment is undertaken through written submission, time-controlled examinations and practical activities. All are subject to Glyndŵr University assessment procedures.

WHAT'S NEXT?

Upon completion learners could progress onto further Higher Education courses such as Foundation and BEng degrees.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

Course - FdSc Fitness & Health
Role - Personal Trainer

“I made the decision to pursue a career as a personal trainer after my young son underwent amputation of his foot. My dream is that my son will one day compete in the Paralympics.

“The support has been fantastic, my lecturer always goes that extra mile and as I’ve been diagnosed as having dyslexia, Cambria has made adjustments to support my learning needs.”

A full-page photograph of a man and a young boy. The man, Daniel Thomas, is on the left, wearing a grey hoodie with 'DANNY' and 'CBCT FITNESS' logos, and grey shorts. He is holding the hand of a young boy on the right. The boy is wearing a red hoodie with 'Ibby Junior' and 'CBCT FITNESS' logos, dark shorts, and red socks with 'CBCT FITNESS' text. They are standing on a blue carpeted floor against a plain white background.

**DANIEL
THOMAS**

FdSc FITNESS AND HEALTH

COURSE CODE: LP01195

LENGTH:

2 years, full time

Students on this course will be required to undertake periods of self study, additional to taught hours.

ENTRY REQUIREMENTS:

- An appropriate BTEC Diploma— Extended Diploma: MPP-MMP / BTEC Diploma: MM.
- An appropriate Access to Higher Education course 'Certificate of Achievement' to include 45 credits at Level 3.
- A minimum of 72 points at GCE A Level or equivalent.

However, the College and University encourages wider access and participation in Higher Education and applications are encouraged from those who may not have the necessary points/qualifications. The Programme Leader will discuss the requirement of the course and assess prospective students for their suitability based on a combination of qualifications, experience and motivation. Appropriate NVQ Level 3, modern apprenticeship, work experience, and free-standing qualifications that form part of the post-16 qualifications framework will also be considered. Mature students (21 years of age or over) without evidence of the above qualifications but with appropriate experience, will be required to demonstrate enthusiasm and aptitude for higher level study.

A Disclosure and Barring Service (DBS) Enhanced Police check is required for this course.

LOCATION:

Deeside

MODULES:

Year 1:

- Learning at Work 1
- Health & Fitness: Assessment and Monitoring
- The Fitness Industry: Health Perspectives
- Sport in Society
- Psychology for Sport and Exercise
- Introduction to Physiology for Sport

Year 2:

- Working with Different Populations
- Physical Activity: Interventions
- Applied Sports Coaching 1 & 2
- Learning at Work 2
- Research Methods for Sport and Physical Activity

WHAT WILL I STUDY?

In choosing to study Cambria's Foundation Degree in Fitness and Health (developed and awarded by the University of Chester), you will get the opportunity to learn a range of relevant topics linked to the fitness industry. This Foundation Degree aims to equip you with the relevant skills to deliver initiatives and activities aimed at improving people's fitness and health related lifestyles.

HOW AM I ASSESSED?

You will be taught through a variety of active and engaging sessions, including lectures, seminars, tutorials and practical workshops. There will also be visiting speakers and opportunities to visit relevant organisations. Most modules will be assessed through a varied mix of assessment types including essays, practical assessment, presentations, projects and exam-type assessments.

WORK PLACEMENT

This programme contains an essential work placement component. If you are not already in employment, we will support you to find a suitable work placement.

Covid regulations are in place in the case that Covid-19 disrupts placements.

WHAT'S NEXT?

Students who successfully complete the FdSc can apply to do a top up year at the University of Chester. You will normally need to achieve a 50% pass level to access a Level 6 programme in this area of study.

CAREER OPTIONS

Studying Fitness and Health at Cambria will provide you with the opportunity to gain a strong background of knowledge and skills to potentially enable you to follow a career within the health and fitness industry.

There may be opportunities to follow career pathways such as:

- Personal Trainers
- Exercise Referral
- Advanced Fitness Instructors
- Physical Activity promotions
- NHS - GP Referral

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

HNC MANUFACTURING & PRODUCTION

COURSE CODE: LP01402

LENGTH:

2 years, part time

Students on this course will be required to undertake periods of self study, additional to taught hours.

ENTRY REQUIREMENTS:

- Level 3 qualification in a relevant subject e.g. BTEC Extended Diploma in Engineering, or equivalent.
- You must also have AS Mathematics or Level 3 equivalent
- You must also have Mathematics and English GCSE at minimum C grade (or equivalent)

LOCATION:

Bersham Road

MODULES:

Year 1

- Engineering Science
- Engineering Maths
- CAD/CAM
- Engineering Design

Year 2

- Production Engineering
- Managing a Professional Engineering Project (Pearson Set)
- Quality and Process Improvement
- CAD for Engineering

WHAT WILL I STUDY?

This course provides a specialist programme of study that covers the key knowledge, understanding and practical skills required in the engineering sector and also offers particular specialist emphasis through the choice of specialist units. Progression from this qualification may well be into or within employment in the manufacturing engineering sector.

The Edexcel BTEC Level 4 HNC in Manufacturing Engineering is a qualification with a minimum of 120 credits of which 50 are mandatory core. It contains a minimum of 65 credits at level 4. Developing a range of skills and techniques, personal qualities and attributes essential for successful performance in working life and thereby enabling learners to make an immediate contribution to employment at the appropriate professional level.

HOW AM I ASSESSED?

A wide range of differentiated assessment strategies are used during the Manufacturing Engineering qualification. The formal assessments for each module are chosen to appropriately respond to subject content and learning outcomes. The assessment strategy is devised in a modular format, each module is assessed during its delivery. Each module has an assessment strategy outlined within the module specification.

- Written Assignments – These may take a variety of forms including reports, essays, case studies or problem based assessments.
- Practicals – These might involve practical activities, laboratory based or investigative assignments and can include some assessment of practical competence.
- Oral Assessments – These may be group or individual and can take the form of presentations, question and answer sessions or seminars.
- Time Constrained Assessments – These take a number of forms. For example they may be closed book assessments similar to exams or may include seen questions or open book exercises.
- Case Studies – These are used to allow students to apply theoretical knowledge to actual business contexts.
- Work-based assessment – These are identified as either being carried out within the workplace context or drawing heavily on the work environment in terms of data or case study material.

WORK PLACEMENT

This programme contains an essential work placement component. If you are not already in employment, Cambria will support you to find a work placement.

Covid regulations are in place in the case that Covid-19 disrupts placements.

WHAT'S NEXT?

Level 4 that leads the student to a range of specialist progression pathways at Level 5, relating to individual professions within the mandatory engineering sector.

Alternatively learners could progress to Higher National Diploma or degree courses in related engineering areas such as manufacturing, mechanical, engineering, electronic or automotive engineering.

Course - Higher National Certificate (HNC) Technology (Mechanical)
Employer - Magellan Aerospace
Role - European Systems and Audit Quality Technician

"From the state-of-the-art facilities to the lecturers and supporting staff, Cambria is a place for the eminent professional to thrive.

"The HNC course features a fundamentally fantastic blend of subjects to cater for each strain of mechanical engineering; it has been pivotal in advancing my career. I regularly put to use the methods and practices discovered in the classroom in order to do my job well and improve practice within my work environment.

"Cambria is supportive and you can be absolutely sure that you'll get the very best and very latest education with lecturers with backgrounds in your field of study."

Assessment is undertaken through written submission, time-controlled examinations and practical activities. All are subject to Glyndŵr University assessment procedures.

WHAT'S NEXT?

Upon completion learners could progress onto further Higher Education courses such as Foundation and BEng degrees.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

Course - FdSC Offender Management, Criminal and Social Justice

“This course provides exciting modules especially for people like me who are interested in the justice sector and rehabilitation, however the course also offers a pathway for people with an interest in prisons and punishment, mental well-being, and offender management.

“To others thinking of studying Offender Management and Social Justice at Cambria, I would like to tell you to not let the opportunity go, it is the key to a successful future. You could be the one to prevent further crime being committed by existing and potential offenders if you complete this degree.”

- Leading and Managing People
- Communication Skills and Interview Techniques
- Employability Skills Analysis Development and Planning

WHAT WILL I STUDY?

In choosing to study Cambria's Foundation Degree in Offender Management, Criminal and Social Justice (awarded by the University of Chester), you will get the opportunity to cover a range of relevant topics linked to Offender Management that will prepare you for employment or the opportunity to progress onto a top-up level with the University of Chester.

HOW AM I ASSESSED?

Modules are assessed through a combination of reports, essays, projects, assessed role play, observed presentations, examinations and portfolio. Where possible, assignments are marked electronically, so you can look at feedback wherever you are, on your own device(s). You will be given feedback and pointers for improvement for every assessment.

WHAT'S NEXT?

Students who wish to progress may do so by progressing to the top-up year to gain a degree in Policing, Law and Investigation at the University of Chester.

CAREER OPTIONS

- UK Border Force
- Probation Service
- Prison Service
- Private Sector Investigative Services
- National Security (MI5/MI6)
- Youth Offending Teams

This qualification gives learners an industry relevant qualification, it does not guarantee a job in the agencies mentioned.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

TEACHING - PCE-PCET

(Professional Certificate in Education – Post Compulsory Education and Training)

LENGTH:

1 year, full time

Course code: Yale - LP01412 | Deeside - LP01414

2 years, part time

Course code: Yale - LP51315 | Deeside - LP51316

Students on this course will be required to undertake periods of self study, additional to taught hours.

ENTRY REQUIREMENTS:

- 5 years vocational experience and a Level 3 or above in a vocational discipline.
- A Disclosure and Barring Service (DBS) Enhanced Police check is required for this course.

LOCATION:

Yale or Deeside

MODULES:

You will study 6 of the following modules of 20 credits each.

- Effective Teaching for Effective Learning 1
- Effective Teaching for Effective Learning 2
- Specialist Subject Learning and Development
- Learning Literacies
- Equality, Diversity and Inclusive Learning
- Learning Digital Competencies
- Offender Learning (Yale only)
- Bilingual Learning (Yale only)

If you complete the course over two years, you will study 3 modules per year.

You will also carry out teaching practice and professional development through a one day per week teaching placement.

WHAT WILL I STUDY?

The programme framework outlines an attractive and innovative approach to teacher education and training that meets the current need for accredited teaching and training qualifications in the diverse post-compulsory sector.

The PCE is aimed at those with vocational experience who do not hold a degree but hold Level 3 or above qualifications in their vocational discipline.

This course is accredited through Aberystwyth University and leads to a Professional Certificate in Education.

HOW AM I ASSESSED?

A range of assessment methods throughout the programme will include reports, reflective journals, observations, essays, presentations and a minimum of 100 teaching hours.

There are no formal examinations on the PCE.

WORK PLACEMENT

This programme contains an essential work placement component. If you are not already in employment, we will support you to find a suitable work placement.

Covid regulations are in place in the case that Covid-19 disrupts teaching placements.

WHAT'S NEXT?

Designed especially for those who want a nationally recognised qualification in order to teach students in Further Education, sixth form and tertiary colleges, prisons, adult education and work-based learning settings.

We will support you with finding a suitable placement within the college, community or through HMP Berwyn if you have an interest in Offender Learning.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

Course - PGCE
Employer - Coleg Cambria
Role - Lecturer Health & Social Care
and Childcare

“The course provides an excellent opportunity to develop the knowledge and skills required within teaching. There are many valuable learning opportunities within lessons and placement and the tutors provide a wealth of expertise and support. The class consisted of professionals from a variety of sectors so class discussions were always interesting.

“The flexibility of the course meant I was able to study whilst working and it has enabled me to build upon my existing qualifications and experience. The course has prepared me for teaching in Further Education and I have been lucky enough to gain a lecturing position within the College at the Yale site”.

A portrait of Joanna Mallon, a woman with long, dark, wavy hair, wearing a bright red top and a thin necklace with a small star pendant. She is smiling slightly and looking towards the camera. The background is a plain, light-colored wall.

FdSc SOUND ENGINEERING & MUSIC PRODUCTION

COURSE CODE: LP52303

LENGTH:

2 years, full time

Students on this course will be required to undertake periods of self study, additional to taught hours.

ENTRY REQUIREMENTS:

- 45 UCAS points
- Extended Diploma subjects/grades required: MMM if studied on its own or to the total of 88 UCAS points when combined with other qualifications
- GCSE Maths and English Language at C grade/grade 4 or above. Plus an interview or presentation of portfolio may be required
- Access to HE Diploma with at least 9 Distinctions and 36 Merits or any other combination that equates to 104 UCAS tariff points in a relevant subject
- Mature students with GCSE grade C or above in English Language and Maths or equivalent, but lacking traditional Level 3 qualifications will be considered on the basis of relevant experience and an appropriate portfolio of work

LOCATION:

Cambria Yale

MODULES:

Year 1

- Computer Audio Technology
- The Media Industry
- Spreadsheets and Data Presentation
- Audio Production Technology
- Practical Audio Production
- Sound Technology
- Radio and Podcasting

Year 2

- Audio Recording
- Broadcast Standards
- The Media Entrepreneur
- Live Performance Operations
- Broadcast Studio Operations
- Sound for TV, Film and Games

WHAT WILL I STUDY?

Behind every live or studio performance lies a fascinating array of modern audio technology. This course gives you an opportunity to learn about the theories and concepts which underpin the use of this equipment, enabling you to work independently, solving practical problems and identifying solutions which help performers, producers and directors get the best results.

You will have access to state-of-the-art sound technology as well as staff with extensive knowledge and experience. You will develop skills in media technology, electronics, computer applications and studio technology and be trained in all aspects of live or recorded entertainment. Combined with the practical hands-on experience you will get if you choose to do a work placement, this will give you a significant advantage when it comes to securing your first job.

It is important to note that while this course includes some elements related to artistic matters, it is not an arts-based course. Furthermore, students are expected to engage with other media production theories and techniques where audio plays only a part, albeit a significant one. Three strands (production; technology; management) run throughout the course, building knowledge at each level.

HOW AM I ASSESSED?

Your knowledge and understanding will usually be assessed via a combination of examinations and coursework. However, certain subjects may be assessed by other means, such as through a portfolio of work or practical work.

WHAT'S NEXT?

When you successfully complete the course, you may wish to progress to the BSc (Hons) Audio and Music Production at Liverpool John Moores University or directly into employment.

Students are eligible to progress to the final year of a BSc honours, and will be supported by college and university staff in making their decision.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

FdSc SPORTS COACHING

COURSE CODE: LP01196

LENGTH:

2 years, full time

Students on this course will be required to undertake periods of self study and work placement additional to taught hours.

ENTRY REQUIREMENTS:

Conventional candidates should normally be able to demonstrate one of the following qualifications:

- An appropriate BTEC Diploma - Extended Diploma: MPP-MMP/ BTEC Diploma: MM.
- An appropriate Access to Higher Education course 'Certificate of Achievement' to include 45 credits at Level 3.
- A minimum of 72 points at GCE A Level or equivalent.
- The College and University encourages wider access and participation in Higher Education and applications are encouraged from those who may not have the necessary points/qualifications. The Programme Leader will discuss the requirement of the course and assess prospective students for their suitability based on a combination of qualifications, experience and motivation.
- Appropriate NVQ Level 3, modern apprenticeship, work experience, and free-standing qualifications that form part of the post-16 qualifications framework will also be considered.
- Mature students (21 years of age or over) without evidence of the above qualifications but with appropriate experience, will be required to demonstrate enthusiasm and aptitude for higher level study.

A Disclosure and Barring Service (DBS) Enhanced Police check is required for this course

LOCATION:

Deeside

WHAT WILL I STUDY?

In choosing to study Cambria's Foundation Degree in Sports Coaching (developed and awarded by the University of Chester), you will get the opportunity to cover a range of relevant topics linked to coaching in a variety of sports. You will have the opportunity to develop your coaching skills and learn through a mixture of practical and theoretical sessions that will prepare you for employment or the opportunity to progress onto a top-up year with the University of Chester.

An integral element of this programme of study will be the completion of governing body coaching awards and the opportunity to deliver coaching sessions to FE learners as part of our Active Cambria strategy.

MODULES:

Year 1:

- Introduction to Sports Coaching
- Principles of Sports Coaching
- Coach Education and Development
- Sport in Society
- Psychology for Sport and Exercise
- Introduction to Physiology for Sport

Year 2:

- Coaching Process and Practise
- Sports Coaching: Professional Issues and Challenges
- Applied Sports Science and Coaching I
- Applied Sports Science and Coaching II
- Learning at Work (Sports Coaching)
- Research Methods for Sport and Physical Activity
- Employability Skills Analysis Development and Planning

HOW AM I ASSESSED?

You will be taught through a variety of active and engaging sessions, including lectures, seminars, tutorials and practical workshops. There will also be visiting speakers and opportunities to visit relevant organisations.

Most modules will be assessed through a varied mix of assessment types including essays, practical assessment, presentations, projects and exam-type assessments.

WORK PLACEMENT

This programme contains an essential work placement component. If you are not already in employment, we will support you to find a suitable work placement.

Covid regulations are in place in the case that Covid-19 disrupts placements.

WHAT'S NEXT?

Students who successfully complete the FdSc can apply to do a top up year at the University of Chester. You will normally need to achieve a 50% pass level to access a Level 6 programme in this area of study.

CAREER OPTIONS

Studying Sports Coaching at Cambria will ensure that you are well placed to follow a career in community coaching or sport and physical activity development. You may also look into a career with a national governing body of sport.

Students with a qualification in Sports Coaching are very employable due the development of skills such as communication, organisation and teamwork.

The FdSc programme provides students with a platform from which to begin constructing their career. Previous students have used this platform to secure careers in sports coaching and/or sports development.

Following further undergraduate study (for example on the 1 year BA top up programme) students have gone onto careers in sports teaching/sports analysis.

An MSc in Sports Coaching is also available with our university partner, the University of Chester.

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

Jordan Jackson Course - FdSc Sports Coaching

“Throughout the Sports Coaching degree, the support, guidance and advice from the lecturers has been first class. They are always there if needed and the lectures are always well planned and detailed.

“The degree has provided me with an insight into areas of the sports coaching world that I would have never looked into and the content throughout has been extremely relevant and interesting. The practical side has been great, getting to coach different age groups and abilities from local schools to older students from the College.

“For anybody who is interested in a career in the sports coaching industry I couldn't recommend this course enough.”

FdA VISITOR ECONOMY

AWARDED BY THE UNIVERSITY OF CHESTER | COURSE CODE: LP01401

LENGTH:

2 years, full time

Students on this course will be required to undertake periods of self study additional to taught hours.

ENTRY REQUIREMENTS:

- 112 UCAS points
- BTEC Extended Diploma: DMM
- BTEC Diploma - D*D*
- Level 3 vocational qualification

LOCATION:

Yale

MODULES:

Year 1:

- Tourism Concepts
- Marketing for Tourism and Events
- Event Tourism
- Managing Service Experiences
- Work Based Skills, Approaches and Practice
- Food, Beverage and Events Management

Year 2:

- Researching the Visitor Economy
- Sustainable Tourism in Practice
- Working in the Visitor Economy
- The Live Event

WHAT WILL I STUDY?

The global Visitor Economy industry is flourishing and management has become increasingly important within many of the sectors, including hospitality, events, attractions, accommodation, tour operators and transport. Publicity and media coverage of high profile issues at both national and international level has brought the industry to the forefront.

The industry is, therefore, in continuous need of managers with graduate status and as such offers varied, challenging and rewarding careers for enthusiastic and committed managers. These skills are also valuable for any organisation involved in the visitor economy, whether small or large scale.

HOW AM I ASSESSED?

The assessment for each module will be 3,000 words or equivalent for year 1 modules and 4,000 words or equivalent for year 2 modules. You will be exposed to a variety of assessment methods designed to ensure that the content, outcomes and level of the modules are measured in a fair and transparent manner. Assessment methods will include reports, presentations, essays, case studies, projects and reviews.

WORK PLACEMENT

This programme contains an essential work placement component. If you are not already in employment, Cambria will support you to find a work placement.

Covid regulations are in place in the case that Covid-19 disrupts placements.

CAREER OPTIONS:

- Destination Marketing & Development
- Hotel & Events Management
- Airlines
- Visitor Attractions

For detailed course information including start dates and costs, please visit www.cambria.ac.uk

PROFESSIONAL DEVELOPMENT

CIM

The Chartered
Institute of Marketing

AAT

(Association of Accounting Technicians)

AAT are the UK's leading professional body offering skills-based accountancy and finance qualifications. Their qualifications are recognised and valued by employers as vocational and technical qualifications that prepare students for the world of work and for working specifically in accounting and finance roles.

AAT's practical accounting and finance qualifications give you the skills that all employers need.

PROFESSIONAL DEVELOPMENT

PRINCE2®

PRINCE2® is a structured project management method that can be tailored to any size project. Developed by the UK government and based on best practise, it is an internationally accepted benchmark for project managers. Individuals seeking employment, as project managers will know that certification by the market leader is a strong addition to their professional portfolio.

We run PRINCE2® Foundation as a standalone course and in conjunction with the PRINCE2® Practitioner.

The Foundation course is three days long, culminating in a one hour multiple choice exam. The Practitioner course follows the Foundation course and is two days long and closes with a 2.5 hour open book exam.

The examination fees (first attempts) and cost of PRINCE2 manual is included in the overall price. PRINCE2® is a registered trade mark of AXELOS Limited, used under permission of AXELOS Limited. All rights reserved. The Swirl logo™ is a trade mark of AXELOS Limited, used under permission of AXELOS Limited. All rights reserved.

NEBOSH & IOSH

(National Examination Board in Occupational Safety and Health) (Institution of Occupational Safety and Health)

Cambria offers accredited courses from the National Examination Board in Occupational Safety and Health (NEBOSH). The course is for those who want to develop a career in health and safety; fire safety; construction safety; health and well-being and environmental management.

The NEBOSH Diploma qualification has honours degree status. Most Universities will allow a NEBOSH Diploma graduate onto a Masters health and safety qualification. It is made up of four units.

Unit A focuses on the management of health and safety; Unit B focuses on occupational health hazards; Unit C focuses on workplace and work equipment hazards; and the Unit D is a work-based assignment focusing on health and safety management and leadership.

To become a health and safety manager, most employers would request that prospective employees possess the NEBOSH Diploma as well as be a Chartered Member of IOSH.

Courses include:

- Certificate in Environmental Management (International Certificate Level 3)
- National General Certificate in Occupational Health and Safety (Level 3)
- National Certificate in Construction Health and Safety (Level 3)
- National Certificate in Fire Safety and Risk Management (Level 3)
- National Certificate in the Management of Health and Well-being at Work (Level 3)
- National Diploma in Occupational Health and Safety (Level 6)
- Working Safely
- Managing Safely
- Managing Health & Wellbeing in the Workplace

HIGHER AND DEGREE

APPRENTICESHIPS

AR GYFER BUSNES
CAMBRIA
FOR BUSINESS

HIGHER AND DEGREE APPRENTICESHIPS

Higher Apprenticeships are a great alternative route to achieving higher level qualifications.

They are a nationally accredited work-based programme designed to meet employer needs to build a well qualified workforce. Many Higher Apprenticeships include Degree, HNC or Foundation Degree programmes, others include higher level professional courses such as AAT and ILM.

The majority of Higher Apprentices complete with fantastic job prospects, continuing to work towards promotion or progress to further academic and professional qualifications such as an honours degree or chartered status. You need to be employed on a relevant role to access Higher Apprenticeship funding.

The Cambria Foundation Degrees in Applied Business Management, Aeronautical and Mechanical Engineering, Advanced Manufacturing Engineering and the HNCs in Civil Engineering, Construction, Technology (Electrical and Electronic) and Technology (Mechanical) can be studied as part of a Higher Apprenticeship.

Cambria offers Higher Apprenticeships in:

- Accounting
- Leadership and Management
- Engineering/Manufacture
- Construction
- Health and Social Care
- Childcare
- Business Admin
- I.T
- Salon Management
- Food Manufacturing
- Horticulture
- Data Analytics

Degree Apprenticeships are similar to Higher Apprenticeships, but differ in that they provide an opportunity to gain a full Bachelor's Degree (Level 6).

Degree Apprenticeships combine working with studying part-time. Apprentices spend part of their time at Cambria and the rest with their employer. They can take three years to complete, depending on the course level. They will allow you to learn at degree level with subsidised tuition fees and the opportunity to earn as you learn.

Degree Apprenticeships are still quite new, so there are a limited number of vacancies. It's anticipated that the number of vacancies will grow over the next year or two.

Cambria offer the following Degree Apprenticeships:

- Degree Apprenticeship in Advanced Manufacturing Engineering with a BEng in Advanced Manufacturing accredited by Swansea University.
- Degree Apprenticeship in Aeronautical Engineering with a BEng in Aeronautical Engineering accredited by Swansea University.
- Digital Degree Apprenticeship with a BSc in Applied Software Engineering delivered in partnership with Grŵp Llandrillo Menai and Bangor University, who will award the degree. (Subject to approval)
