

# CAREERS NEWSLETTER

Issue 1 March 2021

Hello Students, Parents and Carers,  
Welcome to our first issue of Carterton Community College Careers Newsletter 2021.  
I am looking forward to seeing all of our students return to school next week. Hopefully, then after Easter we will be able to start doing some Career activities, whether they are in school with invited guests or virtual experiences.  
I am hoping to arrange Mock Interviews for our current Year 10 students and a one day work placement. Human Library for our Year 9 students, Careers detective for our Year 8 students and What are **SKILLS?** For Year 7.

## UNIFROG

Competencies  
Tool

Personal  
Statement

CV/Resume

This is our brilliant Careers Platform where there is a wealth of information on careers, apprenticeships, colleges and universities. There is a CV builder, a place to log your skills, a personal statement builder and much much more. To access Unifrog, you should have received an email into your school emails. If you cannot find it then please type Unifrog into the search bar, click on forgotten password, then input your school email address and submit. Now open your school email and find the email from Unifrog. Click on the link create new password, make a password and now you should be good to go. Any problems, please do not hesitate to contact me.

Please access the Year Group Google Classrooms where there is much information uploaded and many exciting opportunities.

## Microsoft

[Link to information on GetMyFirstJob](#)

Microsoft have just launched a number of apprenticeship roles in Reading, ranging from level 3 to 6. This information on GetMyFirstJob links to the roles and explains the application process.

## SSE

[Link to information](#)

SSE have a range of apprenticeship opportunities on offer in Oxfordshire, including joiner, fitter, linesperson, or in a multi-craft role within distribution or renewables. Deadline for applications is **9th March**.

## Astra Zeneca

[Link to information](#)

AstraZeneca's are offering a range of roles across a variety of locations, for students interested in looking further afield for opportunities. There is a good range of degree apprenticeship opportunities. Deadline for applications is **19th March**.

## Introducing The Extreme Photonics Applications Centre

The Extreme Photonics Applications Centre (EPAC) is currently being built at the Science and Technology Facilities Council's (STFC) Rutherford Appleton Laboratory. It will provide high quality and broad spectrum training for engineers, apprentices, PhD and early career scientists, generating a pipeline of people with expert, high quality skills. Read the [news article](#) to find out more.

**Dates**
